

NEW Products!

Double-Sided Die-Cut Wallets

Our new Double-Sided Die-Cut Wallet prints are press-printed wallets with rounded corners and feature printing on both sides. Choose two different photos, a photo and a layout with text, or any combination you can dream up. Double-Sided Die-Cut Wallets are **sold in sets of 48**, and Automatic Quantity Discounts are available. You can choose between gloss, linen or pearl paper, and each set of 48 comes in a black wallet box. These prints are ideal for seniors, schools and other portraits.

Our standard digital press guidelines apply for Die-Cut Wallet prints. In order to get the rounded corners, you lose about 1/8" all the way around the image when the wallets are cut. It's really important to keep important elements in the photo away from the edges.
