

### Video to DVD Transfer

We can transfer all your old movies to DVD so you can enjoy them with the whole family! We support lots of older formats including VHS, VHS-C, Mini DV (DVC), Hi8 Tape, and Digital 8 (DV 8). We can even transfer video from your Video Camera Hard Drive and Digital Camera.

All of our Video to DVD Transfers come with Finished Packaging. That means you can choose between a variety of pre-designed themes (Birthday, Holiday, Wedding, etc.) and add a Title so we can customize your DVD Case Wrap, Printed Disc Cover and Chapter Menu to your specifications. Your home videos will be able to sit right on the shelf with all of your favorite Hollywood movies!

**There is a 2-hour maximum per DVD.** Any additional footage will be put onto a separate DVD and charged as a separate transfer. We will delete out any static or blank video sections; however, custom video editing will be charged on a per hour basis.

*No Copywritten material will be transferred. This includes Professional Motion Pictures and home-recorded television shows or movies.*

### DVD Slideshows

We offer two different types of DVD Slideshows to choose from: **Basic** and **Extended**. Both options include Music, Standard DVD Case and Printed Disc. Add your own title and specify what genre of music you want as the mood-setter for your slideshow.\* Both DVD Slideshow types use a variety of different transitions between images to give your slideshow smooth and steady movement from beginning to end.

Slide Show Type	Price	Duplicates
Basic Slideshow (150 imgs max)	\$54.95	\$39.95
Extended Slide Show (500 imgs max)	\$74.95	\$19.95

Our DVD Slideshows are burned to disc in NTSC format and can be played in any standard DVD Player or Computer (MAC or PC). The original image files are not included on the Slideshow DVD. For image archiving, please see our Disc Archive options.
